

Sprott Junior Copper Miners ETF

As of September 30, 2024

888.622.1813 | ENERGYTRANSITION@SPROTT.COM

Sprott Junior Copper Miners ETF (Nasdaq: COPJ) is the only[^] ETF to provide pure-play^{^^} exposure to small, exploration- and development-stage copper miners with the potential for revenue and asset growth. **COPJ** seeks to provide investment results that, before fees and expenses, correspond generally to the total return performance of the Nasdaq Sprott Junior Copper Miners™ Index (NSCOPJ™), which is designed to track the performance of mid-, small- and micro-cap companies in copper mining-related businesses.

[^] Based on Morningstar's universe of Natural Resources Sector Equity ETFs as of 9/30/2024.

^{^^} The term "pure-play" relates directly to the exposure that the Fund has to the total universe of investable, publicly listed securities in the investment strategy.

Key Points

- 1. Pure-Play Junior Copper ETF** – The only pure-play ETF focused on small copper miners, with the potential for significant revenue and asset growth.
- 2. Essential to Energy Transmission** – Crucial to almost every aspect of electricity, copper is essential to power grids, technology, manufacturing and the energy transition.
- 3. Growing Demand and Challenged Supplies** – The ETF will invest in copper miners poised to help capitalize on rising copper demand, despite copper's constrained supplies, diminishing ore grades, extended lead times for new mines, and dwindling inventories.
- 4. Well-Positioned Companies** – Companies upstream in the supply chain may be well-positioned to benefit from the increased investment in copper necessary to meet rising global demand for energy.

Copper Supply and Demand Imbalance Likely to Grow

Source: BloombergNEF Transition Metals Outlook 2024. The line represents demand and the shaded area represents supply. Demand is based on a net-zero scenario, i.e., global net-zero emissions by 2050 to meet the goals of the Paris Agreement. Included for illustrative purposes only.

Performance: Average Annual Total Returns* (%)

Performance data quoted represents past performance. Past performance does not guarantee future results. Current performance may be higher or lower than actual data quoted. Call 1.888.622.1813 or visit www.sprottetfs.com for current month end performance. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

* Returns less than one year are not annualized.

¹ Inception Date: 2/1/2023.

² Market Price is based on the midpoint of the bid/ask spread at 4 p.m. ET and does not represent the returns an investor would receive if shares were traded at other times.

³ The Nasdaq Sprott Junior Copper Miners™ Index (NSCOPJ™) was co-developed by Nasdaq® (the "Index Provider") and Sprott Asset Management LP (the "Sponsor"). The Index Provider and Sponsor co-developed the methodology for determining the securities to be included in the Index and the Index Provider is responsible for the ongoing maintenance of the Index. The Sponsor will provide certain services in connection with the Index including contributing inputs in connection with the eligibility and process to determine the initial selection and ongoing composition of the Index constituents.

⁴ Reflects Total Annual Operating Expenses as outlined in the most recent prospectus. For the services the Adviser (Sprott Asset Management USA, Inc.) provides to the Fund, the Adviser is entitled to receive an annual advisory fee from the Fund calculated daily and paid monthly at an annual rate of 0.75% of net assets.

⁵ Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The operating expenses in this fee table do not correlate to the expense ratio in the Fund's financial highlights because the financial statements include only the direct operating expenses incurred by the Fund.

IMPORTANT DISCLOSURES & DEFINITIONS

An investor should consider the investment objectives, risks, charges and expenses carefully before investing. To obtain a Sprott Junior Copper Miners ETF Statutory Prospectus, which contains this and other information, visit <https://sprottetfs.com/copj/prospectus>, contact your financial professional or call 1.888.622.1813. Read the Prospectus carefully before investing.

Investors in the Fund should be willing to accept a high degree of volatility in the price of the Fund's shares and the possibility of significant losses. An investment in the Fund involves a substantial degree of risk. The Fund is not suitable for all investors. The Fund is considered non-diversified and can invest a greater portion of assets in securities of individual issuers than a diversified fund. As a result, changes in the market value of a single investment could cause greater fluctuations in share price than would occur in a diversified fund.

Shares are not individually redeemable. Investors buy and sell shares of the Sprott Junior Copper Miners ETF on a secondary market. Only market makers or "authorized participants" may trade directly with the Fund, typically in blocks of 10,000 shares.

Funds that emphasize investments in small/mid-cap companies will generally experience greater price volatility. Diversification does not eliminate the risk of investment losses. ETFs are considered to have continuous liquidity because they allow an individual to trade throughout the day. A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses, affect the Fund's performance.

The Sprott Junior Copper Miners ETF seeks to provide investment results that, before fees and expenses, generally correspond to the total return performance of the Nasdaq Sprott Junior Copper Miners™ Index (NSCOPJ™).
